Khin Yati Kyaw (Kass)

UI/UX Designer & Frontend Developer | Freelance Graphic Designer

Bangkok, Thailand | khinnyatikyaw@gmail.com

PROFESSIONAL SUMMARY

UI/UX Designer and Frontend Developer with experience leading end-to-end product design, from initial sketches and Figma prototypes to responsive web and mobile interfaces. Skilled in user flows, wireframing, visual design, frontend implementation, and brand identity.

CORE SKILLS

UI/UX Design: Figma, user flows, Figure 8 sketches, wireframes, interactive prototypes, mobile-first design, design systems, accessibility
Frontend Development: HTML5, CSS3, JavaScript, React, responsive design, SEO fundamentals, Git, GitHub
Graphic Design: Branding, logo design, typography, layout, visual storytelling, Adobe Photoshop, Adobe Illustrator, Canva

PROFESSIONAL EXPERIENCE

Freelance Graphic Designer | Independent Projects
2020 - Present

- Design education-focused graphics, product visuals, and brand identities, translating client briefs into clear layouts, logos, and consistent visual assets.

UI/UX Designer & Frontend Developer | ExpireSense

- Led end-to-end UI/UX design for web and mobile products, from Figure 8 ideation sketches and user flows to wireframes, high-fidelity Figma screens, and stakeholder presentations.
- Owned mobile app interface design and website UX, creating responsive layouts, reusable components, and consistent interaction patterns across user journeys.
- Developed frontend interfaces from approved Figma designs, bridging visual design and implementation to deliver cohesive, user-centered experiences.

Graphic Designer | Study in Thailand Education
June 2025 - December 2025

- Created education-focused visual content using structured layouts, accessible typography, and consistent branding to improve clarity for prospective students.

Design Analyst | Red Hat Graphic Design Agency
May 2024 - May 2025

- Analyzed creative briefs, target audiences, and brand guidelines to recommend design directions aligned with project requirements.
- Evaluated layouts, typography, color, and visual consistency; delivered actionable feedback and revisions to strengthen design quality.

SELECTED DESIGN AND FRONTEND PROJECTS

ZeroPrompt | AI Model Auto-Router Interactive Demo
University Project | UI/UX Design, Frontend Development, Figma, SEO | pshkai.github.io/zeroprompt

- Designed Figma prototypes and developed the responsive frontend for an AI model-routing demo, including conversation workspace, model discovery, and selection flows.
- Built user-facing experiences for a 12-model demo catalog, routing preferences, and model comparisons; applied UI consistency and SEO fundamentals.

EDUCATION

Global Academy @ Siam University | Bangkok, Thailand
Expected Dec 2028

LANGUAGES

Burmese (Native) | English (professional working proficiency)
